Looking for Shell 4000 Rally participants
Date Listed: 04-Feb-15  Price: Please Contact  Address: Edmonton, AB

I am trying to interview all Shell 4000 participants that I can find and just talk about their memories and experiences of the races. I’m planning on driving from Vancouver to Halifax this spring in a Volvo 122S along the various routes of the original Shell 4000 rallies and I want to talk to everyone that I can about what it was like to actually drive in these events. If you participated in the Shell 4000 Rally or perhaps own or owned a car that was in the rally or have any other history you want to share, please contact me! You can read more about my project at www.traveldriverace.com/canada-5000, Dave Clark davesclark@gmail.com 587-523-4739

‘Mystery’ Aluminum Race Car
Date Listed: 31-Jan-15  Price: $52,000.00  Address:

I have a very rare and interesting full bodied "Mystery" aluminum race car from the early 50's. The car has many styling features from the early Jaguar C & D, Aston Martin, Ferrari and others. The car appears to be Factory built with evidence of pressed inner & outer panels. It may have been a "Custom" built race car, Factory prototype or "Special". I discovered the car outside Mosport about seven years ago. Over the years the original frame had been replaced with a "Custom" Corvette C3 unit. To maintain the light weight build, I sourced a low mileage aluminum block GMC LS engine & 6 speed tranny from the GM Holden plant (Australia). Note: the Holden built engines are regarded as having higher output than their North American brothers. At 2400 lb.; 50/50 weight ratio and 350-400 hp. This car is FAST! Mechanically sorted...requires bodywork & paint. Email gordon@gordonconstruction.com or call 613-299-4437 (mobile-days)

**Date Listed:** 07-Feb-15  
**Price:** $2,000.00  
**Address:** 102 Ridge Road West, Grimsby, ON L3M 4E7

Midget - moving in July and 'my beloved' says we are not moving my project with us. Please email Mike for more details - make an offer! 1970 Midget, the car was driven home when purchased and taken down by the person I bought it from, everything is here and a lot of new parts have been put into the engine including rings and one piston, I have all parts, new roof, older full cover with cockpit access, plus leather cover when top is down, the doors and front cowl have been sand blasted and have three coats of epoxy primer, four Pirelli tires (too old to run run on in my opinion), new brakes (in a box), ownership. the floor had been touched up but I would suggest further repairs but nothing major required. I am not selling this in pieces (or for parts) I want the whole car to go.

1975 MG Midget

Date Listed: 04-Feb-15  Price: $6,000.00  Address: Buckhorn, ON K0L

This is a lovely little car. Has always started and run well after the winter. Body is in good shape. Needs a little electrical work (the ignition is cutting out) and front shocks. This is not a "project" car as it is in very good shape. Appraised at $8000, but I know insurance appraisals are always on the high side. Asking $6000. I just don't drive it much any more and it's a shame to have it sit in the garage. 705-761-2397
