EVERY CAR & TRUCK HAS A STORY

... Let us help you tell yours!

1985 Jaguar XJS TWR

In the 70s and 80s Tom Walkinshaw raced XJS Jaguars in Europe and Australia. In 1985 he won the European Championship, and then went on to a successful Formula 1 career as Engineering Director for Michael Shumacher. When new the 1985 XJS was modified in Tom's racing shop to have many of the performance and safety features of his racing cars.

Besides Tom's successes, the XJS held the Cannonball run record for four years. New York to LA in under 33 hours! Grace, Pace and Space!

I've driven to Flin Flon, Charleston and Bismark. This year alone, I drove from Victoria to Ottawa and back. It feels like driving a Track car, but you can drive for 12 hours straight and feel relaxed and refreshed at the end.

In September 2012 the car suffered an engine fire but has since been completely restored.

It has engine, brake, transmission and suspension modifications enabling the car to exceed 165 mph!

It has been repainted to the original metallic Frost Green.

Engine: 5.3 litre V12, O/H Cam, FI, Electronic Ignition
Transmission: GM TH 400 (modified)

Cost New: \$140,000

Owner: Alan Heartfield, Victoria, BC

Imprinted Story Boards . \$69.95 (Right side Includes all set-up & production costs)

- .9" x 12". (shown). Custom sizes also available.
- Colour of metal for Laser Etched .(left)
