

The Dashpot

September 2017

This is the month where current Club Executives ask for volunteers to take on an Executive Portfolio. We need a Vice-President, as Trish moves to the President's Portfolio. There are other Portfolios in need of new people. This is your opportunity to show support for the club and help us succeed.

Installing MGB Speedometers: [Click to read some good notes about how to accomplish a tough task by Michael Cooke](#)

August Meeting News:

The meeting was held at the Rideau Lounge in Kemptville. I have lost my wee notes from the meeting so you will have to make up your own notes as you go. So in place of the notes that I would have otherwise put here, please take the opportunity to view some pictures I received from a variety of club members in recent times. [Click here to take a look](#). And thanks to those folks who send along these things for us all to enjoy!!

[Click here to see some pictures from the Boot'n'Bonnet All British Car Day August 20th at Kingston City Park](#)

Take special note of the pictures of Jim Ashby conducting a Tech Session on his E-Type Jaguar. Overheating caused by thermostat failure. That's why Jaguars have a passenger seat..... so the mechanic, that Jaguar owners always seem to need, can sit somewhere.

A very successful Technical Session was held at the Pete Carss garage; Sept 2nd

"Relays and Other MG Electrics"

[Click here to see the pictures.](#)

Many thanks to Pete for the session.

Many thanks to Michael Cooke for his activity at the session.

The British Invasion at Stowe, Vermont was a grand success, in terms of the vehicles on display, but also the weather AND another very fine Technical Session that Trish Adams can tell you about.
