

The Dashpot

June 2018

Lots to look at in this edition of the monthly newsletter. Keep a close eye on the online calendar to keep up-to-date on all the meetings, gatherings and events. Hope you can zoom in on this picture —————> to really appreciate & confirm the truth in the details.

May Meeting News: Held at Dunn's Deli on Bank Street South in Ottawa. All kinds of important information about upcoming events was available to meeting attendees.

Club member Pete Carss conducted a great slideshow about cleaning your MG cooling system with CLR (there are varying opinions about this).

You can see Pete's presentation slides by clicking on this link:

Headwaters British Car Club, All British Show, Caledon, Ontario June 9 2018

Abingdon; late 1940's

A Tale Of 4 MG-P-Type Cars

Club member Michael Cooper connected with me recently with this note: Hello Len, I'm one of those "absent" friends these days; too much volunteer work to get the B out for the last 4 years! You may remember a few years ago I gave a presentation at a club night on the 1934 MG PA I once owned. My schoolmate Tony, now in Australia, has recently rebuilt the same model, and researched the history of 3 PAs owned by us 3 schoolmates, who still are in touch, in the UK, in Aus and here. Cheers, Michael Cooper

Did You Know About MOSS Europe?

Mike Price says.... I recently sourced parts more cheaply at Moss Europe in the UK than through California & Virginia. Club members may find it worthwhile to check out this alternative.
